

Food, Pharmaceuticals, and Bioengineering Division Award

Purpose: The Division Award recognizes an individual's outstanding chemical engineering contribution in food, pharmaceutical and/or bioengineering fields. These contributions may have been made in industry, government, or academic areas, or with other organizations.

Description of the Award:

1. This award will recognize an individual whose contribution to the chemical engineering community has been outstanding.
2. The award is to consist of a plaque and \$4000.
3. The awardee is to be selected by an award committee. The committee will consist of a chair and four members. The chair and the members of the committee shall serve for two years. The chair and members of the committee will be appointed by the division chair with the approval of the executive committee.
4. A call for nomination will be sent to division members by a division officer two months prior to the selection, and approximately nine months prior to the Annual Meeting.
5. The selection of the awardee will be approved by the executive committee.
6. The award is to be given to the individual in a public session at the Annual Meeting of AIChE.
